STATISTICAL COMPENDIUM

October 1992

- Également disponible en français -

INTRODUCTION

This is the third edition of the MPHEC Statistical Compendium. The Compendium has been developed to serve as a source of statistical data related to those Maritime post-secondary institutions within the scope of the Commission.

The statistical data have been presented as uniformly as possible given the diversity of the institutions. Historical data may differ from those published in earlier Commission publications due to subsequent revisions. Unless otherwise noted, the data included are for the academic years 1981-82 and from 1986-87 to 1990-91 inclusive. Data prior to 1986-87 may be found in the first edition of the Compendium published in 1986 or in the second edition published in 1988. All three editions are available from the Commission offices and may be subject to a fee.

The tables shown are only a sample of the possible cross-tabulations of the various demographic parameters. Specific requests can be directed to the Commission offices at (506) 453-2844.

A detailed listing of the programs approved by the Commission and offered in the Maritimes, is available in the Commission publication "Maritime Provinces Post-Secondary Programme Profile"- November 1991.

A listing of Definitions and Notes which pertain to the tables of data follow the Table of Contents.

Maritime University Operating Income for the Year Ending 1990	58
Maritime University Operating Expenditures for the Year Ending 1990	59

DEFINITIONS and NOTES

DEFINITIONS -

The following definitions were applied in the preparation and presentation of the data:

Full-time Undergraduate Student

One who is enroled in a programme of studies, and is taking at least 60% of the normal course load on December 1 of the academic year.

Full-time Graduate Student

One who is enroled in a programme of studies and makes substantial demand upon the resources of an institution such as by enroling in courses and engaging in research under continuing supervision. Full-time graduate students are counted as of December 1 of the academic year.

Part-time Undergraduate Student

One who is enroled, part-time, in courses which are normally recognized by the institution as acceptable credits towards an approved degree, certificate or diploma programme. Part-time undergraduate students are counted each semester or session.

Part-time Graduate Student

One who is enroled part-time in an approved graduate degree, certificate or diploma programme. A part-time graduate student may be counted in any semester or session but only once during a 12-month period.

Full-time Equivalent (FTE)

The full-time equivalent (FTE) is a value assigned to each student dependent upon the registration status (full- or part-time) and level (bachelor's, master's or doctoral) of the student. All full-time students are assigned an FTE of 1.00. Part-time undergraduate students are assigned an FTE of 0.10 for every one semester course and 0.20 for every two-semester course in which they are enroled. Part-time master's level students are assigned an FTE of 0.33 for the academic year. Part-time doctoral level students are assigned a 1.00 FTE for the academic year.

DEFINITIONS AND NOTES (cont'd)

Weighted Full-time Equivalent (WFTE)

The weighted full-time equivalent (WFTE) is a value calculated for each programme category (Arts, Science, Business Administration, Engineering, etc.) by multiplying the total FTE of the programme category by a specified weighting factor. The WFTE is intended to reflect the relative costs of programmes.

International Student

One who is studying in Canada under a student authorization issued by Canada Employment and Immigration.

Undergraduate level (UG)

Comprises undergraduate certificate, undergraduate diploma, bachelor's degree and first professional degree.

Graduate level (G)

Master's or Doctoral degrees.

Bachelor's Degree (B)

Classified as undergraduate level.

First Professional Degree (1st P)

These degrees, which are classified as being undergraduate bachelor's level, include 1st level degrees in programme areas such as education (1-year degree programmes), medicine, dentistry, law, veterinary medicine, and divinity.

Master's Degree (M)

Classified as graduate level. All Master's, excluding M.Div., are included.

Doctoral Degree (D)

Classified as graduate level. For degrees awarded, only earned Doctorates are included.

DEFINITIONS AND NOTES (cont'd)

NOTES -

The following notes will provide the reader with additional information to be taken into account when reviewing the tables:

1. The tables in section A. ENROLMENTS - GENERAL use full-time enrolment data as of the official count date of December 1 of the academic year, and exclude students in Co-operative programs who are on a work term on that date. However, the detailed tables in Sections B and D by discipline, gender, etc., include the headcounts of all full-time students.

2. The data for the Atlantic Institute of Education for 1981-82 are included with those from Dalhousie University.

3. The data for the University of Prince Edward Island include enrolments at the Atlantic Veterinary College which opened in 1986-87. The opening of the AVC resulted in a significant increase in Faculty numbers and funding levels over a five year time span beginning in 1985-86.

STATISTICS CANADA DISCIPLINE CATEGORIES

Education

- all education specialties including Physical Education

Fine and Applied Arts

- includes Fine Art, Drama, and Music

Humanities

- includes Classics, History, English, Modern Languages, Philosophy, Religious Studies, Library Science, Public Relations and Journalism

Social Sciences*

- includes Law, Business Administration, Public Administration, Hospitality, Economics, Social Work, Sociology, Psychology, Political Science, Geography, Environment Studies, Anthropology, Area Studies, Secretarial Science, Gerontology and Women's Studies

Agriculture and Biological Sciences

- includes Agriculture, Biology, Household Science, Biochemistry, Veterinary Medicine, Zoology, Botany, Food Science and Marine Biology

Engineering and Applied Sciences

- includes Engineering, Architecture and Forestry

Health Professions

- includes Medicine, Dentistry, Nursing, Optometry, Pharmacy, and Rehabilitation Sciences

Mathematics and Physical Sciences

- includes Mathematics, Computer Science, Chemistry, Geology, Physics and Oceanography

***In order to present more detailed information, in this Compendium the subject area of Business Administration and Commerce is presented separated from the major discipline of Social Sciences, and is entitled Commerce and Administration.**
